Patient Care Excellence

Congratulations to Integrated Health Partners (our 50-50 partnership between BCHS and physicians from across the county) – on special recognition for improving the health of our community. A tribute signed by Governor Rick Snyder, State Senator Mike Nofs, Speaker of the House James Bolger and Representatives Kate Segal was presented to IHP last week. It honors our Pathways to Health initiative that is improving chronic care and advancing 'patient-centered medical homes' across Calhoun County.

Mark Crawford
Vice President of Business Development
